MICROBLADING AFTERCARE INSTRUCTIONS

Day 1 Wipe the brows at the following times:

Day 2 Wipe the brows 3 times: **morning midday evening**

Day 3-5 Leave brows alone. Allow them to dry (during this time, no makeup, creams or water on or around the brows)

Day 5-6 Begin balm, **1x per day** Apply a thin layer in the morning until all scabs are gone.

WHAT TO EXPECT/WHAT IS NORMAL

Days 1-4 DARK
Days 5-7 SCABBING/FLAKING
Days 8-10 COLOUR GONE
Days 12-21 COLOUR RETURNS

Please note: Whatever strokes did not stay, we will re-do at the touch-up!

HOW TO CARE FOR YOUR BROWS

First 7 days **No water on the brows!** (Carefully wash your face with a face cloth or wipes and your hair leaning back into a bath or at a salon)

No sweating/gym (Sweating will push the pigment out and moisten the brows which we do not want)

No sauna, swimming, or makeup on the brows.

No picking or scratching.

Day 8 You may begin to wash your face and hair normally.

No direct sun, no facials, chemical acid peels, microdermabrasion or laser on the brows from now on (this may change the colour and fade the strokes faster or completely).

Please wear sunscreen or a hat at all times once healed. This will prolong your results.

Please trust the process 😊
